ATTITUDE® is a premium-grade acidifier formulated to achieve the best performance of crop inputs requiring consistent and correct pH. With high-grade citric acid and complex blend of botanical extracts and surfactants it effectively reduces tank mix solution pH to 5 or less, enhancing the efficacy and compatibility of various agricultural applications.

## FEATURES & BENEFITS

- Water conditioning agent and acidifier.
- Formulated to reduce pH of tank mix spray solutions.
- Contains high-grade citric acid and a complex blend of botanical extracts and surfactants.

## MODE OF ACTION

- Effectively conditions hard water and reduces pH of tank mix solutions to 5 or less.
- Amount used determines the level of pH reduction.
- Not suitable for products requiring a pH higher than 5.
- Ensures optimal effectiveness of products requiring low pH.

## ADDED VALUE

- Maintains pesticide efficacy in hard water, preventing tie-up with cations.
- Prevents alkaline hydrolyses of pesticides that are sensitive to high pH, ensuring efficacy of pest control.
- Versatile application methods: aerial, ground, or CDA.
- One of the most versatile acidifiers available with excellent compatibility.
- Can be used together with other adjuvants when additional penetration or wetting is required.
- OMRI-approved, suitable for certified organic growers.
- Provides growers with confidence in managing spray solution pH.
