

ENCOURAGE® CLASSIC

Foliar fertilizer for Increased Plant Vigor & Reduced Herbicide Drag in All Crops

ENCOURAGE CLASSIC is a complex, 2-1-2 foliar-applied fertilizer to improve plant vigor. It can be used with glyphosate and other herbicides where crop stunting is a concern. ENCOURAGE CLASSIC can also be utilized as an adjuvant to improve general pesticide performance.

BENEFITS OF USING ORO AGRI FOLIAR NUTRIENTS

- Reduces stress on glyphosate resistant crops, such as corn, soybeans and cotton where a herbicide is sprayed over the crop
- Improves disease control when added to fungicides on corn
- Improves uptake of other nutrition and foliar products
- Improves plant health and vigor
- Soil applications can increase root growth, development and ability to utilize root zone moisture

Citrus root treatment, 2 qts. per acre on young trees

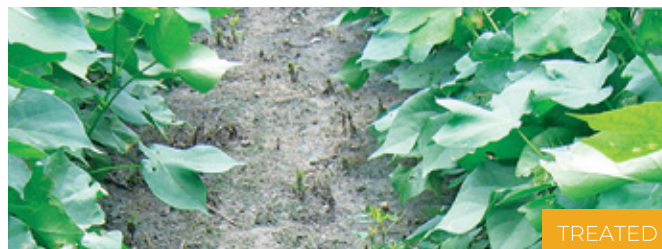

Citrus root on young trees

Cotton plants, 15% higher growth with ENCOURAGE Classic

Cotton plants, 33" inches high

Cotton treated with ENCOURAGE Classic plus herbicide

Cotton treated with herbicide alone
