

ENCOURAGE *CLASSIC*

2-1-2 rapid uptake fertilizer
to improve plant vigor

CLASSIC

ENCOURAGE® CLASSIC is a balanced fertilizer designed to support vegetative growth and reduce herbicide drag in all crops. It is a 2-1-2 foliar-applied fertilizer that can be used with glyphosate and other herbicides where crop stunting is a concern. Additionally, ENCOURAGE CLASSIC serves as an adjuvant to enhance general pesticide performance. It can be applied foliar or to soil, improving plant health and overall growth.

FEATURES & BENEFITS

- Derived from urea, monopotassium phosphate, and potassium nitrate.
- Contains Fe-DTPA and Mn-EDTA in chelated form.
- Technical specs: 2-1-2, 0.4% Fe, 0.1% Mn, humic acids, and surfactants.
- Features OROWET technology for improved spreading and coverage.

MODE OF ACTION

- Reduces stress on crops and improves plant vigor.
- Mitigates stunting effects of herbicides like glyphosate.
- Improves uptake of other nutritional and foliar products.
- Promotes overall plant health, leading to better growth and resilience.
- Suitable for early vegetative stages of vegetables and row crops or on young trees and vines from planting to reproduction.
- Can be applied foliar or to soil.

ADDED VALUE

- Reduces stress on glyphosate-resistant crops like corn, soybeans, and cotton.
- Improves nutrient uptake.
- Enhances overall plant health and vigor.
- Soil applications increase root growth and development.
- Enhances the plant's ability to utilize root zone moisture.
- Results in better crop yields and quality.
- Promotes balanced crop growth and reduces herbicide chlorosis.
