

## SECTION 1: IDENTIFICATION

- 1.1 Product identifier:** **ATTITUDE**
- Other means of identification:** Not applicable.
- 1.2 Relevant identified uses of the substance or mixture and uses advised against:**
- Relevant identified uses:** Adjuvant.
- Uses advised against:** None known.
- 1.3 Name, U.S. address, and U.S. telephone number of the manufacturer, importer, or other responsible party:**  
 Oro Agri, Inc.  
 2788 S. Maple Ave.  
 Fresno, CA 93725  
 Telephone Number: +1(559) 442-4996  
 Email: sds-na@rovensanext.com
- 1.4 Emergency phone number:**  
 Incident, Spill, Leak, Fire, Exposure or Accident  
 Call CHEMTREC Day or Night  
 Within USA and Canada: +1(800) 424-9300  
 Outside USA: +1(703) 741-5970.

## SECTION 2: HAZARD(S) IDENTIFICATION

- 2.1 Classification of the substance or mixture:**
- 29 CFR 1910.1200:**  
 Classification of this product has been carried out in accordance with 1910.1200 App D.
- Acute inhalation toxicity, Category 4  
 Eye damage/irritation, Category 1
- 2.2 Label elements:**
- 29 CFR 1910.1200:**  
 Signal word, hazard statement(s), symbol(s) and precautionary statement(s) in accordance with paragraph (f) of § 1910.1200.
- Signal word: Danger**
- 
- Hazard statements:**  
 Causes serious eye damage. Harmful if inhaled.
- Precautionary statements - Prevention:**  
 Avoid breathing mist/vapors/spray. Use only outdoors or in a well-ventilated area. Wear eye protection or face protection.
- Precautionary statements - Response:**  
 IF INHALED: Remove person to fresh air and keep comfortable for breathing. IF IN EYES: Rinse cautiously with water for several minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Immediately call a poison center/doctor if you feel unwell.
- Precautionary statements - Storage:**  
 Store in a well-ventilated place.
- Precautionary statements - Disposal:**  
 Dispose of contents/container in accordance with local/regional/national/international regulations.
- 2.3 Hazards not otherwise classified (HNOC):**  
 None known.

## SECTION 3 : COMPOSITION/INFORMATION ON INGREDIENTS

- 3.1 Substances:**  
 Non-applicable
- 3.2 Mixtures:**
- Mixture description:**

Identification	Chemical name	Concentration
	<b>Proprietary mixture<sup>1</sup></b>	<b>55 – 85 %</b>
CAS: 77-92-9	<b>Citric Acid</b>	<b>15 - 45 %</b>

**Composition comments:**

<sup>1</sup>Components, CAS numbers and/or concentrations not listed are either non-hazardous, below reporting limits or have been withheld as trade secrets.

## SECTION 4: FIRST-AID MEASURES

### 4.1 Description of necessary measures:

Do not leave affected person unattended. Remove victim out of the danger area. Keep affected person warm, still and covered. Take off immediately all contaminated clothing and wash it before reuse. In all cases of doubt, or when symptoms persist, seek medical advice. In case of unconsciousness place person in the recovery position. Never give anything by mouth.

**By inhalation:**

If breathing is irregular or stopped, immediately seek medical assistance and start first aid actions. Provide fresh air.

**By skin contact:**

Take off immediately all contaminated clothing. Rinse skin with water/shower. If skin irritation or rash occurs: Get medical advice/attention.

**By eye contact:**

Immediately flush eyes with plenty of water for at least 15 minutes. Remove contact lenses, if present and easy to do. Continue rinsing. Get medical attention if irritation develops and persists.

**By ingestion/aspiration:**

Rinse mouth with water (only if the person is conscious). Do NOT induce vomiting. In all cases of doubt, or when symptoms persist, seek medical advice.

### 4.2 Most important symptoms/effects, acute and delayed:

Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. Skin irritation. May cause redness and pain. Harmful if inhaled. Prolonged exposure may cause chronic effects.

### 4.3 Indication of immediate medical attention and special treatment needed, if necessary:

In case of burns and frostbite: Rinse immediately contaminated clothing and skin with plenty of water before removing clothes. Symptoms may develop several hours following exposure; medical observation therefore necessary for at least 48 hours.

## SECTION 5: FIRE-FIGHTING MEASURES

### 5.1 Suitable (and unsuitable) extinguishing media:

**Suitable extinguishing media:**

Water fog. Foam. Dry chemical powder. Carbon dioxide (CO<sub>2</sub>).

**Unsuitable extinguishing media:**

Do not use water jet as an extinguisher, as this will spread the fire.

### 5.2 Specific hazards arising from the chemical:

During fire, gases hazardous to health may be formed.

### 5.3 Special protective equipment and precautions for fire-fighters:

Self-contained breathing apparatus and full protective clothing must be worn in case of fire.

**Firefighting equipment/instructions:**

In case of fire and/or explosion, do not breathe fumes. Move containers from fire area if you can do so without risk. Do not allow firefighting water to enter drains or water courses. Fight fire with normal precautions from a reasonable distance.

**Specific methods:**

Use standard firefighting procedures and consider the hazards of other involved materials.

**General fire hazards:**

None.

## SECTION 6: ACCIDENTAL RELEASE MEASURES

### 6.1 Personal precautions, protective equipment and emergency procedures:

**For non-emergency personnel:**

Keep unnecessary personnel away. Keep people away from and upwind of spill/leak. Eliminate all ignition sources (no smoking, flares, sparks, or flames in immediate area). Wear appropriate protective equipment and clothing during clean-up. Avoid breathing mist or vapor. Do not touch damaged containers or spilled material unless wearing appropriate protective clothing. Ensure adequate ventilation. Local authorities should be advised if significant spillages cannot be contained. For personal protection, see section 8 of the SDS.

**For emergency responders:**

Wear protective equipment. Keep unprotected persons away.

**6.2 Environmental precautions:**

Avoid release to the environment. Inform appropriate managerial or supervisory personnel of all environmental releases. Prevent further leakage or spillage if safe to do so. Avoid discharge into drains, water courses or onto the ground.

**6.3 Methods and materials for containment and cleaning up:**

**Large Spills:** Stop the flow of material if this is without risk. Dike the spilled material, where this is possible. Use a non-combustible material like vermiculite, sand, or earth to soak up the product and place into a container for later disposal. Following product recovery, flush area with water.

**Small Spills:** Absorb with earth, sand or other non-combustible material and transfer to containers for later disposal. Wipe up with absorbent material (e.g. cloth, fleece). Clean surface thoroughly to remove residual contamination.

Never return spills to original containers for re-use. For waste disposal, see section 13 of the SDS.

**6.4 Reference to other sections:**

See section 13.

**SECTION 7: HANDLING AND STORAGE****7.1 Precautions for safe handling:**

Keep away from open flames, hot surfaces and sources of ignition. When using do not smoke. Do not get in eyes, on skin, or on clothing. Avoid breathing mist or vapor. Avoid prolonged exposure. Explosion-proof general and local exhaust ventilation. Take precautionary measures against static discharges. All equipment used when handling the product must be grounded. Use non-sparking tools and explosion-proof equipment. Wear appropriate personal protective equipment. Avoid release to the environment. Observe good industrial hygiene practices. Persons susceptible to allergic reactions should not handle this product.

**7.2 Conditions for safe storage, including any incompatibilities:**

Keep away from heat, sparks and open flame. Store in a cool, dry place out of direct sunlight. Store in original tightly closed container. Store in a well-ventilated place. Keep in an area equipped with sprinklers. Store away from incompatible materials (see Section 10 of the SDS).

**7.3 Specific end use(s):**

Except for the instructions already specified it is not necessary to provide any special recommendation regarding the uses of this product.

**SECTION 8: EXPOSURE CONTROLS/PERSONAL PROTECTION****8.1 Control parameters:**

Substances whose occupational exposure limits have to be assessed in the workplace:

No Occupational Exposure Limits (OELs) for the ingredients in this products listed in OSHA OEL tables.

**8.2 Biological limit values:**

No biological exposure limits noted for the ingredient(s).

**8.3 Appropriate engineering controls:**

Explosion-proof general and local exhaust ventilation. Good general ventilation (typically 10 air changes per hour) should be used. Ventilation rates should be matched to conditions. If applicable, use process enclosures, local exhaust ventilation, or other engineering controls to maintain airborne levels below recommended exposure limits. If exposure limits have not been established, maintain airborne levels to an acceptable level. Provide easy access to water supply and eye wash facilities.

**8.4 Individual protection measures, such as personal protective equipment:****Eye/face protection:**

Wear safety glasses with side shields (or goggles) and a face shield. Wear face shield if there is risk of splashes.

**Skin protection:****Hand protection:**

Wear suitable gloves. Chemical protection gloves are suitable, which are tested according to EN 374. Check leak-tightness/impermeability prior to use. In the case of wanting to use the gloves again, clean them before taking off and air them well. For special purposes, it is recommended to check the resistance to chemicals of the protective gloves mentioned above together with the supplier of these gloves.

**Other:**

Protective clothing against liquid chemicals. Take recovery periods for skin regeneration. Preventive skin protection (barrier creams/ointments) is recommended. Wash hands thoroughly after handling.

**Respiratory protection:**

If engineering controls do not maintain airborne concentrations below recommended exposure limits (where applicable) or to an acceptable level (in countries where exposure limits have not been established), an approved respirator must be worn. Selection and use of respiratory protective equipment should be in accordance with OSHA General Industry Standard 29 CFR 1910.134; or in Canada with CSA Standard Z94.4.

**Thermal hazards:**

Wear appropriate thermal protective clothing, when necessary.

**Environmental exposure controls:**

Use appropriate container to avoid environmental contamination. Keep away from drains, surface, and ground water.

**General hygiene considerations:**

When using, do not eat, drink or smoke. Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing and protective equipment to remove contaminants. Contaminated work clothing should not be allowed out of the workplace.

## SECTION 9: PHYSICAL AND CHEMICAL PROPERTIES

### 9.1 Information on basic physical and chemical properties:

**Appearance:**

Physical state:	Liquid
Color:	Colorless
Odor:	Wintergreen
Odor threshold:	Data not available

**Volatility:**

Boiling point at atmospheric pressure:	Data not available
Evaporation rate:	Data not available

**Product description:**

Density:	1.0 - 1.1 g/mL
Relative density:	Data not available
Dynamic viscosity:	0 - 15 cP
Kinematic viscosity:	Data not available
pH:	1.3 – 2.0
Vapor density:	Data not available
Partition coefficient n-octanol/water:	Data not available
Solubility in water:	Complete
Solubility properties:	Data not available
Decomposition temperature:	Data not available
Melting point/freezing point:	Data not available

**Flammability:**

Flash Point:	Data not available
Flammability (solid, gas):	Data not available
Autoignition temperature:	Data not available
Lower flammability limit:	Data not available
Upper flammability limit:	Data not available

**Particle characteristics:**

Median equivalent diameter:	Data not available
-----------------------------	--------------------

### 9.2 Other information:

**Information with regard to physical hazard classes:**

Explosive properties:	Data not available
Oxidizing properties:	Data not available
Corrosive to metals:	Data not available
Heat of combustion:	Data not available
Aerosols-total percentage (by mass) of flammable components:	Data not available

**Other safety characteristics:**

Surface tension:	Data not available
Refraction index:	Data not available

## SECTION 10: STABILITY AND REACTIVITY

### 10.1 Reactivity:

The product is stable and non-reactive under normal conditions of use, storage and transport.

### 10.2 Chemical stability:

Material is stable under normal conditions.

### 10.3 Possibility of hazardous reactions:

No dangerous reaction known under conditions of normal use.

### 10.4 Conditions to avoid:

Avoid heat, sparks, open flames, and other ignition sources. Avoid temperatures exceeding the flash point. Contact with incompatible materials.

### 10.5 Incompatible materials:

Strong oxidizing agents.

### 10.6 Hazardous decomposition products:

Thermal decomposition of this product can generate carbon monoxide, carbon dioxide, sulfur oxides, and sodium oxides.

## SECTION 11: TOXICOLOGICAL INFORMATION

### 11.1 Information on toxicological effects:

#### Information on likely routes of exposure:

In case of exposure that is repetitive, prolonged or at concentrations higher than recommended by the occupational exposure limits, it may result in adverse effects on health depending on the means of exposure:

#### Ingestion (acute effect):

May cause discomfort if swallowed.

#### Inhalation (acute effect):

Prolonged inhalation may be harmful.

#### Contact with the skin (acute effect):

May be harmful in contact with skin.

#### Contact with the eyes (acute effect):

Causes serious eye irritation.

### 11.2 Symptoms related to the physical, chemical, and toxicological characteristics:

Severe eye irritation. Symptoms may include stinging, tearing, redness, swelling, and blurred vision. Permanent eye damage including blindness could result. Skin irritation. May cause redness and pain. Harmful if inhaled. Prolonged exposure may cause chronic effects.

#### Information on toxicological effects:

#### Acute toxicity:

Harmful if inhaled.

#### Product-specific toxicological information: ATTITUDE (CAS Mixture)

Exposure route	Endpoint	Value	Species	Method
<i>Acute toxicity</i>				
Oral	LD50	2,500 mg/kg	Rat	OECD 423
Dermal	LD50	>2000 mg/kg	Rat	OECD 402
Inhalation vapor	LC50	>4.161 mg/L (4 h)	Rat	OECD 403

#### Skin corrosion/irritation:

Non skin irritant.

#### Skin contact **ATTITUDE**

OECD 404

Result: Non-Irritating

Species: Rabbit.

#### Eye damage/irritation:

Causes serious eye irritation.

**Eye contact** **ATTITUDE**  
OECD 405  
Result: Irritating  
Severity: Severe eye irritation. Risk of serious damage to eyes.  
Species: Rabbit.

**Skin sensitization:**  
Not a skin sensitizer.

**Sensitization** **ATTITUDE**  
OECD 406  
Result: Non-sensitizing  
Species: Guinea pig.

**Respiratory sensitization:**  
Not a respiratory sensitizer.

**Germ cell mutagenicity:**  
No data available to indicate product or any components present at greater than 0.1% are mutagenic or genotoxic.

**Carcinogenicity:**  
This product is not considered to be a carcinogen by IARC, NTP, or OSHA.

- **International Agency for Research on Cancer (IARC) Monographs on the Evaluation of Carcinogenic Risks to Humans**  
Not listed.
- **National Toxicology Program (NTP) Report on Carcinogens**  
Not listed.
- **OSHA Specifically Regulated Substances (29 CFR 1910.1001-1050)**  
Not listed.

**Reproductive toxicity:**  
Data not available.

**Specific target organ toxicity (STOT):**

- **Specific target organ toxicity - single exposure**  
Not classified.
- **Specific target organ toxicity - repeated exposure**  
Not classified.

**Aspiration hazard:**  
Not an aspiration hazard.

**Chronic effects:**  
Prolonged inhalation may be harmful.

## SECTION 12: ECOLOGICAL INFORMATION

### 12.1 Ecotoxicity:

The experimental information related to the eco-toxicological properties of the product is not classified for environmental hazards under 29 CFR 1910.1200. However, this does not exclude the possibility that large or frequent spills can have a harmful or damaging effect on the environment.

### 12.2 Persistence and degradability:

No data is available on the degradability of this product.

### 12.3 Bioaccumulative potential:

Data not available.

### 12.4 Mobility in soil:

Data not available.

### 12.5 Results of PBT and vPvB assessment:

Data not available.

### 12.6 Endocrine disrupting properties:

Data not available.

### 12.7 Other adverse effects:

No other adverse environmental effects (e.g. ozone depletion, photochemical ozone creation potential, endocrine disruption, global warming potential) are expected from this component.

## SECTION 13: DISPOSAL CONSIDERATIONS

### 13.1 Disposal methods:

Collect and reclaim or dispose in sealed containers at licensed waste disposal site. Do not allow this material to drain into sewers/water supplies. Do not contaminate ponds, waterways, or ditches with chemical or used container. Dispose of contents/ container in accordance with local/regional/national/international regulations.

#### Local disposal regulations:

Dispose in accordance with all applicable regulations.

#### Hazardous waste code:

The waste code should be assigned in discussion between the user, the producer, and the waste disposal company.

#### Waste from residues/unused products:

Dispose of in accordance with local regulations. Empty containers or liners may retain some product residues. This material and its container must be disposed of in a safe manner (see Disposal instructions).

#### Contaminated packaging:

Since emptied containers may retain product residue, follow label warnings even after container is emptied. Empty containers should be taken to an approved waste handling site for recycling or disposal.

## SECTION 14: TRANSPORT INFORMATION

**14.1 Transport of dangerous goods by land (DOT):** Not regulated as dangerous goods.

**14.2 Transport of dangerous goods by sea (IMDG):** Not regulated as dangerous goods.

**14.3 Transport of dangerous goods by air (IATA/ICAO):** Not regulated as dangerous goods.

**14.4 Transport in bulk (according to IMO instruments):** Non-applicable

## SECTION 15: REGULATORY INFORMATION

### 15.1 Safety, health and environmental regulations specific for the product in question:

#### Specific provisions in terms of protecting people or the environment:

It is recommended to use the information provided in this safety data sheet as a foundation for conducting workplace-specific risk assessments. These assessments will help establish the appropriate risk prevention measures for handling, using, storing, and disposing of this product. Take into consideration other applicable federal, state, and local laws and local regulations.

#### California Proposition 65:

This product is not known to contain any chemicals currently listed as carcinogens or reproductive toxins.

## SECTION 16: OTHER INFORMATION

**Revision Date:** 6/11/2025

**Version Number:** 1

#### Key literature references and sources for data:

OSHA Hazard Communication Standard (HCS), 29 CFR 1910.1200.

Transport of dangerous goods by road or rail (49 CFR US DOT). International Maritime Dangerous Goods Code (IMDG). Dangerous Goods Regulations (DGR) for the air transport (IATA).

Manufacturer Disclaimer: The information contained in this safety data sheet ("SDS") is based on sources, technical knowledge and current legislation. Furthermore, is based on data believed to be accurate; thus, the company does not assume any liability for its accuracy. The information provided herein cannot be considered a guarantee of the properties of this product and the same is simply a description of the security requirements. The use, occupational methodology and/or conditions for users of this product are not within our awareness or control. It is ultimately the responsibility of the user(s) to take the necessary measures to obtain the legal requirements concerning the manipulation, storage, use and disposal of chemical products. The information of this SDS only refers to this product, which should not be used for purposes other than those specified. Finally, the manner in which this product is used and whether there is any infringement of patents is the sole responsibility of the user(s).
