

CLASSIC On Small Grains

ENCOURAGE® CLASSIC is a versatile 2-1-2 foliar fertilizer, with humic acid, used to improve root development and plant vigor. It also contains chelated Fe and Mn to help crops recover from post-emergent herbicide drag. CLASSIC, formulated with WETCIT®, functions as an adjuvant when used in a tank mix. Working as an adjuvant it provides excellent spreading and penetration of any foliar-applied tank-mix application. CLASSIC can be used in every post-emergent foliar application you make during the season.

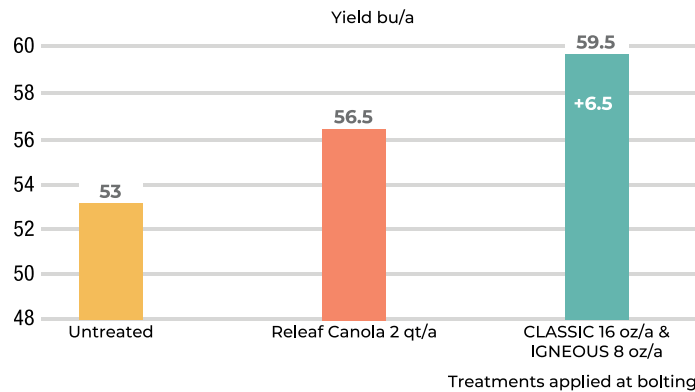

Winter Wheat (Montana)

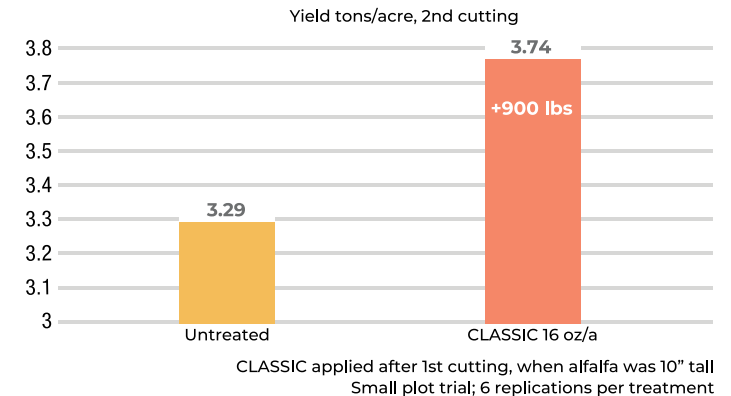

Dryland Malt Barley (Montana)

Canola Yield (Wisconsin)

Roundup Ready Alfalfa (Montana)
