

ADJUVANT

SKYHAWK 

Adjuvant for improving spreading, wetting and penetration of organic pesticides and nutrients

SKYHAWK

MYRIAD
TECHNOLOGY

APE/NPE
FREE

SKYHAWK® is an effective, OMRI certified non-ionic surfactant that enhances the performance of foliar-applied pesticides, herbicides, and nutrients. SKYHAWK with MYRIAD® Technology is a patented formula featuring a complex blend of botanical extracts and surfactants. This proprietary mixture of fatty acids, wintergreen and other plant-based ingredients, facilitates excellent spreading on the leaf and improves penetration through the plant's waxy cuticle. This allows foliar pesticides and nutrients to be evenly distributed onto and into the plant. Featuring renewable ingredients SKYHAWK promotes sustainability and provides growers with a next generation adjuvant option for organic crop production.

FEATURES & BENEFITS

- Protects delivery of active ingredient.
- Enhances uniform spray coverage.
- Improves penetration through the cuticle.
- CPDA certified, APE/NPE free.
- OMRI certified for organic use.

MODE OF ACTION

- Patented MYRIAD® Technology
- Protects delivery of active ingredient.
- Enhances uniform spray coverage.
- Improves penetration through the cuticle
