HOWITZER

APE/NPE
FREE

HOWITZER® is a proprietary, next generation adjuvant formulated using MYRIAD® Technology, a patented formula featuring a complex blend of botanical extracts. This proprietary mixture of plant-based ingredients and premium surfactants ensures compatibility and maintains the suspension of active ingredients, optimizing pesticide performance. HOWITZER is not only an effective wetting agent improving leaf coverage, but also an excellent penetrant allowing pesticide active ingredients into the plant. It is a highly versatile adjuvant which can replace many different products, simplifying crop programs and reducing the number of adjuvants on the farm. HOWITZER promotes sustainability, is certified by CPDA and free from APE/NPE for environmental safety.

FEATURES & BENEFITS

- Utilizes patented MYRIAD Technology, featuring a complex blend of botanical extracts including ingredients from palm kernel, wintergreen and premium surfactants.
- Renewable and promotes sustainability through its lower environmental impact.
- CPDA certified and APE/NPE free for environmental safety.

MODE OF ACTION

- Protects delivery of active ingredient.
- Enhances uniform spray coverage.
- Improves penetration through the cuticle.
- Provides superior translocation within the plant.

ADDED VALUE

- Safe for all crops.
- Reduce SKUs and input costs.
- Versatile formula can replace various adjuvants.
- Compatibility with biologicals and volatile plant oils.
- Simplifies crop programs.
- Biodegradable, renewable ingredients.
- 100% sourced and manufactured in the USA.
