

Symspray

Stabilized seaweed and micronutrient
foliar spray solution

Symspray

Symspray® is a stabilized seaweed and micronutrient foliar spray solution. Symspray is designed to reduce plant stress at critical physiological growth stages by meeting micronutrient needs.

FEATURES & BENEFITS

Symspray is a stabilized seaweed extract solution using cold water sourced *Ascophyllum nodosum* as its base due to its proven efficacy, higher natural compound levels and better product performance. Natural plant growth compounds found in seaweeds have a limited shelf-life. Symspray uses a unique stabilizing process to ensure consistent performance and shelf-life of these natural compounds.

Fortified with Micronutrients:

- Potash (K_2O) 1.0%
- Cobalt (Co) 0.17%
- Manganese (Mn) 1.5%
- Zinc (Zn) 0.7%
- Cold water sourced *Ascophyllum nodosum*

MODE OF ACTION

- Improved respiration
- Better moisture retention
- Stimulates stomata

ADDED VALUE

- Uniformity of bud break
- Improved flowering
- Increased fruit set
- Increased fruit retention
- Increased fruit size
- Enhanced fruit maturation
- Improved tolerance to heat stress
