

System-Bounty

Phosphite-based foliar fertilizer
to boost reproductive processes

System-Bounty

System-Bounty™ is a foliar fertilizer combining calcium, magnesium, sulfur, boron and molybdenum delivered in a phosphite formulation designed to enhance nutrient uptake and mobility. It is specifically intended to enhance reproductive processes and is well suited to support the flowering cycle of crops.

FEATURES & BENEFITS

System-Bounty™ is a phosphite solution blend combining calcium, magnesium, boron, and molybdenum.

- Calcium (Ca) 2%
- Magnesium (Mg) 1%
- Sulfur (S) 1%
- Boron (B) 0.25%
- Molybdenum (Mo) 0.05%

MODE OF ACTION

- Systemic nutrition and mobility due to phosphite form
- Enhances natural root flushing process

ADDED VALUE

- Compatible with most fertilizers, herbicides, insecticides & fungicides
- Promotes reproductive processes
- Provides key micronutrients at peak demand for the crop
- Mitigates environmental and biotic stress
