

System-K

Phosphite-based foliar nutrition designed
to supplement basic fertilizer programs

System-K

System-K™ is a foliar fertilizer derived from potassium phosphite making it highly systemic. It enhances nutrient uptake and mobility throughout the plant. This rapid delivery is beneficial for meeting peak nutrient demand timing and is well-suited for addressing potassium deficiency issues during the season.

FEATURES & BENEFITS

System-K is derived from potassium phosphite.

- Potassium (K) 20%

MODE OF ACTION

- Systemic nutrition and mobility due to phosphite form
- Enhances natural root flushing process

ADDED VALUE

- Potassium delivery critical to developing fruit
- Promotes root development
- Increases soil nutrient uptake
- Mitigates environmental stress
