

System-SeaCal

Foliar fertilizer designed
to improve fruit quality

System-SeaCal

System-SeaCal™ combines Sysstem-Cal phosphite based fertilizer with Symspray®, a natural biological nutritional additive derived from *Ascophyllum nodosum*. System-SeaCal is intended for foliar use on various crops, including fruits, vegetables, and forage crops. The phosphite formulation enhances calcium uptake and mobility within the plant, delivering it directly to the fruit.

FEATURES & BENEFITS

System-SeaCal combines Sysstem-Cal®, a calcium phosphite fertilizer and Symspray®, a stabilized seaweed solution into one convenient package.

- Calcium (Ca) 4.0%
- Potash (K₂O) 0.15%
- *Ascophyllum nodosum*

MODE OF ACTION

- Supplies calcium directly to the fruit to improve overall quality
- Rapid absorption and systemic nutrition
- Powered by Symspray to help the crop overcome environmental stress

ADDED VALUE

- Maximizes cell division & builds strong cell walls
- Aids flowering & enhances fruit retention
- Improves fruit quality
- Mitigates heat stress
- Supports plant health & nutrient uptake
