Directions for Commercial Use:

KDL is intended for foliar use. Apply 2 to 4 quarts per acre with sufficient water for thorough coverage. For best results, spray in early morning or late afternoon. Foliar fertilization is intended to supplement standard ground fertility programs and will not by itself provide all nutrients normally required by agricultural crops. If you have any questions regarding mixing or application rates contact your Agro-K dealer before using this product.

APPLICATION PRECAUTIONS:

Tank Mixes

KDL is compatible with many fertilizers and pesticides but a compatibility check is always recommended. Fill the tank ½ to 2/3 with water and begin agitation and add tank-mix partner products (surfactants, pesticides, etc.) to the tank based on manufacturer labeled instructions. Mixing order will depend on the tank-mix partners. If the tank-mix partners are sensitive to high pH, add KDL first and then add a buffering agent to lower the spray solution to the desired pH. Then add the tank-mix partners. Do not mix KDL directly with other products that are acid based and have low pH; dilute KDL first before mixing with acidic products. Do not apply KDL in combination with citrus or petroleum oils. Do not apply KDL with copper based fungicides.

Spray Applications

Do not apply KDL with any type of hand, pump or back-pack sprayer. Do not use hand gun type applicators. Contact Agro-K or your Crop Advisor with questions. Apply with proper and accurately calibrated spray equipment to dry plant surfaces to the point of wet with no run-off. Avoid applying to wet leaf and fruit surfaces. Avoid spraying at temperatures above 85F degrees at time of application during day light hours. For additional information regarding Agro-K products, tank-mixes and spray conditions contact your local Agro-K representative. User assumes full responsibility to ensure proper product, application equipment, environmental conditions and plant compatibilities exist prior to application.

WARRANTY

- 1.-The manufacturer guarantees and warrants that the content and the total net weight are as stated within lawful limits.
